PURE WHITE LEAD

Ever made in this country.

Their Mills are under the superintendence of Mr. D. G. BATCHELDER, whose reputation as a Lead Manufacturer has long since been well established throughout New England and New York, and his White Lead stands unrivalled in this country.

The Salem Lead Company's Lead can be found for sale by most of the first-class Drug, Paint or Hardware dealers throughout New England, and by many in New York, Pennsylvania, and also in the Southern States.

Its uniform Purity and brilliant Whiteness are fully appreciated wherever it is used, and these qualities in an eminent degree are achieving for it a success and demand hitherto unprecedented in the Paint trade.

This White Lead, owing to the great care used in the selection of the material from which it is made, and also in the grinding of the same, is said to wear longer and harder, and to present a harder surface to the action of the weather, than most of the Leads now in use.

Its perfect Purity is warranted in all cases.

LEAD PIPE

Of any size or thickness required, made from the very best Pig Lead, and warranted satisfactory.

Although we intend to fill all orders for White Lead and Lead Pipe promptly, we have sometimes found, in the early Spring and Fall, that it was impossible to keep a stock on hand, so large was the demand. Our patrons are therefore requested to send their orders early, or before they are entirely out, to avoid inconvenience or delay in the deliverance of the same.

Its perfect purity is warranted in all cases.

LEAD PIPE

Strong and reliable, made from the best lead, and warranted accordingly.

Although we have to fill all orders for White Lead and Lead Pipe promptly, we have sometimes found in the local market that it was impossible to keep a stock on hand, in large quantities. Our business was therefore conducted on consignment, and we have to deliver the goods before they are actually ordered, and we have to deliver the goods at the moment.

The Arlington Portable Range.

CHILSON'S New Range, 1872.

The first sight of this new and splendid Portable Range will convince all that its equal has never been seen, — in its Beautiful Design, Superior Fine Heavy Castings, with and without Hot Closets, and Reservoirs; also, Hot Water Fronts for Bath Boilers, Sifting Grates, Ash Pans, etc.

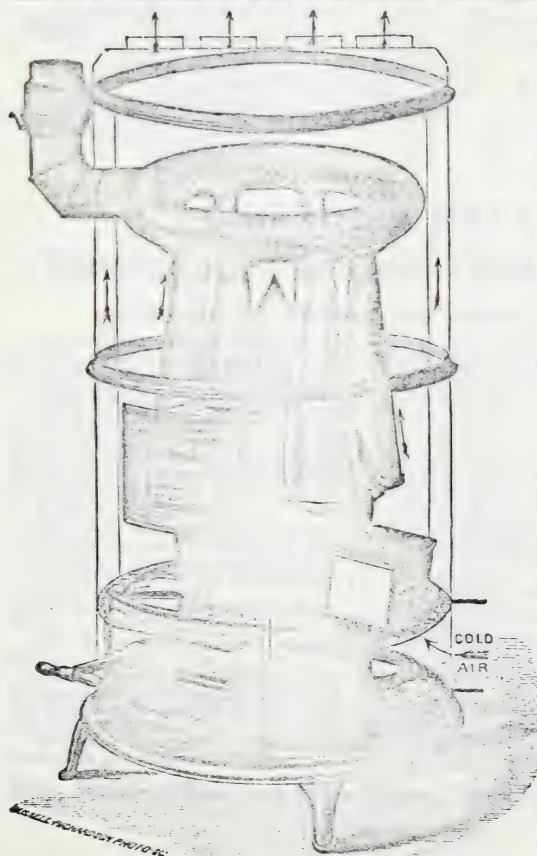

Housckeepers will be pleased with this PORTABLE RANGE.

CHILSON'S CELEBRATED AND UNRIVALLED BRICK AND PORTABLE FURNACES.

Ten Sizes.

Patented in the United States, England and France.

The high reputation this furnace has acquired, in the use of more than twenty thousand, places it pre-eminently ahead of any other known plan for thoroughly and economically warming buildings. The cuts of the brick or portable furnaces will show at a glance to any intelligent mind the wonderful heating powers, — a cluster of tapering Radiators standing directly over the fire, must have over any other form of heating surface, and which is so constructed as to be perfectly gas and smoke tight. Any one in want of a furnace should not fail of thoroughly examining this furnace.

Special attention given to putting up Furnaces and Ranges, and the ventilation of buildings in every part of the country.

Nothing but what is strictly first-class work is manufactured by me.

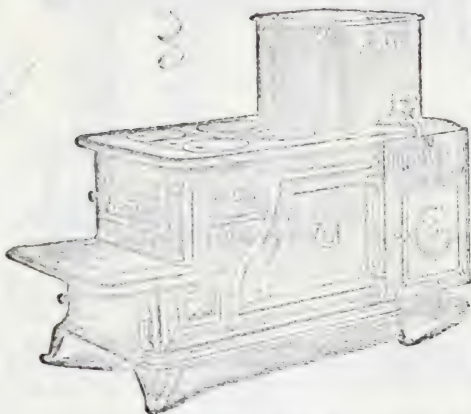

Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, etc.
Warerooms: 99 and 101 BLACKSTONE STREET, BOSTON.

Foundry at Mansfield, Mass.

GARDNER CHILSON.

THE ARLINGTON COOKING STOVE.

CHILSON'S NEW STOVE.—JUST COMPLETED.

Five minutes' examination of this Stove will prove it to be the CHEAPEST, NEATEST, MOST CONVENIENT and DURABLE, and in EVERY RESPECT the BEST COOKING STOVE ever made. WITHOUT EXCEPTION, the WATER FRONT FIXTURES for heating water, for BATH BOILERS, etc., are the MOST PERFECT EVER INVENTED. Do NOT FAIL to examine this Stove before purchasing elsewhere.

A VARIETY OF SIZES, WITH or WITHOUT Extension Tops, Reservoirs, Hot Closets, etc., etc. for HARD or SOFT COAL, or Wood, kept constantly on hand.

CHILSON'S PATENT Elevated, Double-Oven COOKING RANGE

HAS BEEN REMODELED AND GREATLY IMPROVED.

This celebrated Range is universally acknowledged to be the most complete and perfect Kitchen Range in America.

No housekeeper, who would enjoy the comforts of a really perfect Kitchen Range, should fail to examine this before purchasing. Sizes adapted for dwellings, hotels, etc. with or without water-backs, hot closets, and hot-air fixtures for heating additional rooms.

It excels all others, —

1st — In its entirely new principle for circulating the heat around either oven separately, or both ovens, as desired.

2d — In its heavy flue castings and thorough workmanship.

3d — In its GREAT ECONOMY OF FUEL.

4th — In its quick and even baking ovens.

5th — In its self-regulating flues, without the usual complication of dampers; and finally, in its general beauty of design, durability, etc.

Nothing but what is strictly first-class work is manufactured by me.

Also, Parlor, Office, and Store Stoves, Patent Dampers, Registers, Ventilators, etc.

Warerooms, 99 and 101 Blackstone St., BOSTON.

MUTUAL LIFE INSURANCE CO.
Office, Sears Building, Washington, Cor. Court St.,
BOSTON.

Organized in 1862, and having assets amounting to \$2,500,000.

The "John Hancock" is a Massachusetts company, and strictly mutual.

Its policy holders are protected by the laws of this Commonwealth, and especially by the noted *Non-Forfeiture Law*, under which a life policy, age 20, upon which one annual payment only has been made, is continued in force for 330 days from the date at which the second premium became due but was unpaid; the same policy, with four annual payments made, is continued in force for three years and 250 days from the date at which the fifth annual payment became due but was unpaid, the company being of course entitled to the forborne or unpaid premiums.

These two examples abundantly prove the importance and value of this beneficent law of Massachusetts.

The young merchant, whose life was insured in companies chartered by other States, who unfortunately was ruined by the great fire in this city, in view of his inability to pay his premiums when due, very naturally exclaimed, "I wish I was insured in the John Hancock."

Let those who contemplate effecting insurance upon their lives, profit by such experience, and secure the benefits conferred by a HOME COMPANY.

THE GODFREY ROOFING

Has been in use for years, and has fully established its claims to public confidence—having shown its ability to resist perfectly the heat of summer and the cold of winter. Its fire-proof qualities have likewise been severely tested in the midst of a conflagration. The perishable tarred paper in common use is dispensed with, and IRISH HEMP FELT, not less than an eighth of an inch in thickness, is substituted therefor—this material forms, *of itself*, a perfect weather-proof covering that will endure for years. Over this felt, which is first lapped and nailed to the roof-boarding in the most thorough manner, is spread a uniform layer of the GODFREY COMPOSITION; this is partially absorbed by the felt, and gradually hardening, forms a firm, elastic covering that is

PRACTICALLY IMPERISHABLE.

Parties who find a tin roof too expensive, when kept properly painted, or who are out of conceit with tar and gravel, for reasons too numerous to detail here, and all others interested, are invited to investigate. Roofs shown and references given on application at our office.

**House, Store, Office, Desk, Drawer, Chest and Pad
LOCKS AND NIGHT LATCHES**

(RIM AND MORTISE.)

These Locks and Latches are adjustable to any thickness of door, from 1 to 3 or more inches; are interchangeably Right or Left hand, easily applied, and in every way durable and reliable. The principle upon which they are constructed admits of an almost endless variety of combinations or changes, thus enabling us to furnish any Town or City entire, and guarantee that no two locks are alike. In fact, no Lock is ever sent from the Factory which can be passed by any key but its own.

THE GREAT IMPROVEMENT
IN
ROOFING.

First Premium Awarded by
AMERICAN INSTITUTE, 1870.

From Certified Reports of Judges American Inst. Exhibition, 1870.

H. W. Johns' Improved Roofing — "Is strong and flexible, unaffected by the sun's heat; practically fire proof, and is really an article of the first order of merit."

Signed, { HORACE GREELEY, Prest.
GEO. PEYTON, Rec. Sec'y.
SAM'L. D. TILLMAN, Cor. Sec'y.

From Report of Com. appointed by the AMERICAN INSTITUTE FARMERS' CLUB to examine the ASBESTOS ROOFING, December 6, 1870.

"The material constitutes one of unusual merit, much superior to any of the class previously brought to their notice, and worthy of trial by those who desire a durable, easily applied, comparatively inexpensive and safe roofing, the material having, in addition to the other merits claimed for it, that of being practically fire-proof."

THE
ONLY & ORIGINAL MANUFACTURER
OF
THE IMPROVED WHITE RUBBER
CEMENT

(Successor to JOHN E. LOVEJOY.)

The undersigned would respectfully call your attention to his

IMPROVED
White Rubber Channel Cement,

Feeling confident that, from his long experience in the manufacture of the same, and the uniform favor with which it has been received, that it needs but a single trial to convince you of its superiority over all others now in the market.

This Cement is manufactured from the BEST WHITE PARA RUBBER, is prepared with great care, and is fully warranted to be as represented.

It is put up in quantities of five, ten and twenty gallons, and by the barrel.

Orders by express or mail promptly filled.

All Goods Warranted.

CEMENT

That will Stick?

To have the channels gaping open and staring customers in the face, as a cheap Cement is liable to do, is not designed to advance the sale of goods.

We keep constantly on hand a large supply of BLACK and WHITE CEMENT, and are prepared to fill all orders at the shortest notice. Our WHITE is the only Cement of the kind in the market, as no other manufacturers understand how to make it, and consequently it has not been very extensively introduced, except among some of our BEST Manufacturers.

JONES'

Elastic Ribbed Roofing.

The superiority of this Roofing over all others has been fully established during the last five years, having been tested by practical and scientific men, and in every instance having been pronounced the Best Roofing now known.

Reasons why Jones' Roofing is superior to any other now in use:

It is Fire Proof, without sand or gravel, and is warranted to wear longer, and will not crack or blister in the hottest weather.

It will last as long as Tin Roofs, and not half the cost of putting it on. Some of the Largest Roofs in Lynn are covered with it, to the entire satisfaction of many owners of buildings.

Leaky Roofs, Plastic, Slate, Asphalte, Mastic, and Asbestos Roofs repaired and warranted. The best of reference given if required. Orders promptly attended to by addressing

JOHN A. JONES,

GLENMERE, ... LYNN, MASS.

County, City and Town Rights sold, and instructions given anywhere in the United States at reasonable prices. Also for sale,

Jones' Enamelled Roof Paint,

FOR SHINGLES, TIN, ZINC AND IRON ROOFS.

This composition is made of Ground Slate and Evaporating Oil, making a coating as smooth and hard as Slate. The cost is much less than that of any other Paint. For Cistern Water, that is used for drinking purposes, it has the advantage over all others of having no taste of wood, paint or coal tar.

EXCELSIOR COPPER PAINT.

PATENTED DEC. 26, 1871.

A sure and reliable coating for the preservation of Vessels' Bottoms from Worms, Barnacles, Grass, etc.

This Paint when applied to Wooden Bottom Vessels will be found a perfect substitute for Copper Sheathing. One gallon will coat from 300 to 325 superficial feet on wood, or 100 to 125 sheets of Copper Sheathing.

For coating Copper Sheathing it has no equal, as it contains a larger per cent of copper than any other paint manufactured.

Manufactured at Gloucester, Mass., by the

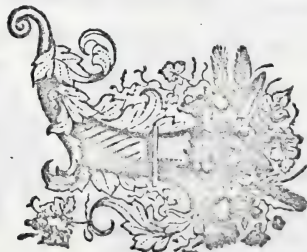

GLOUCESTER COPPER PAINT CO.

TARR & WONSON'S

PATENT

COPPER PAINT,

FOR SHIPS' BOTTOMS.

This Paint was introduced to the public in 1863, and is now extensively used on the Atlantic, Pacific and European Coasts, which is the best guarantee the public can have of its efficacy.

See the annexed statement from the Cape Ann Mutual Marine Insurance Company:—

GLOUCESTER, April 5, 1865.

Messrs. Tarr & Wonson:

GENTLEMEN,—In answer to your letter of the 3d inst., would state that this Company insures vessels bound to Southern ports, West Indies, or Europe, painted with two coats of your Copper Paint, at the same rates as those whose bottoms are coppered. Your Paint is considered by the Directors to be the best substitute for copper known to them.

Yours truly,

W. A. PEW,
President Cape Ann Mutual Marine Ins. Co.

We guarantee that no worms will enter the plank of any vessel coated by ourselves with this paint. For sale at all the principal seaports in the United States and British Provinces.

BEST SYRINGE IN THE WORLD!

PHYSICIANS AND DRUGGISTS, NOTICE.

Syringe' satisfactorily accomplishes all the desiderata required. It deserves all success, and undoubtedly will command it."

It is finally conceded by the prominent physicians throughout the United States, that the Fountain Syringe is superior to all others, whether used as a DOUCHE FOR CATARRH, or for any other purpose where an enema is required. It is self-acting; no valves to get out of order, no pumping, no air injected. Be sure and send for a circular before purchasing any of the BULB SYRINGES. We refer, by permission, to Chas. E. Buckingham, M.D.; John P. Reynolds, M.D.; George Hayward, M.D. Dr. Winslow Lewis says: "During a professional life of nearly fifty years, he has used all the various syringes made here or abroad. All of them are more or less complicated, the valves soon getting out of order, and those without valves inconvenient. The Fountain
